

Play & Leisure

River Multiplay

About Us

Founded in 1991 & based in Buckley, North Wales, Play & Leisure Ltd is a family run company leading the way in the design, manufacture and installation of playground, sports & outdoor fitness equipment to the relevant BS EN standards. We are constantly thinking of new, innovative, exciting & fun products to stretch the imagination of children today & in the future. Our products are developed by a team of highly skilled & dedicated designers, who being parents themselves understand the needs of children and what makes them tick. Being an ISO 9001 registered company we pride ourselves in manufacturing high quality equipment using materials sourced locally at our premises in Buckley so you know you are buying British. We are also members of the API, CHAS, SMAS & Constructionline. With all these factors taken in to consideration, you can have peace of mind in knowing that your playground will be putting smiles on children's faces for years to come.

River Multiplay

River Multiplay units have been specifically designed for toddlers from 2 – 5 years old. At a young age children are both curious and adventurous as well as being full of energy and excitement, they are learning all the time on a range of skills which include interacting with other children and motor skills. With this in mind our Multiplay units have been carefully designed to accommodate a young child's reach, grip, stamina and above all imagination. Being modular, River Multiplay provides endless combinations of activities to suit differing needs, locations and budgets. Made from high quality mild steel, these Multiplay units will provide years of stimulating and trouble free play.

River

Symbols

When designing our equipment we take into consideration the type of play activities the equipment will promote. The following range of symbols will help you identify the different activities the equipment will provide.

Guarantee

All our equipment is manufactured at our UK premises and our structural steelwork meets the highest standards. We guarantee that if any product fails due to a defect in workmanship during a 25 year period, we will repair or replace free of charge all parts found to have a structural defect. This extensive period of guarantee is only possible due to our continual program of quality through every stage of design manufacture, installation and service.
